

Referral Guide for Healthcare Providers

Sanova Health – Cardiac Care Services

About Sanova Health

Sanova Health provides outpatient cardiac diagnostic testing and consultation services designed to support timely patient assessment, streamlined communication, and continuity of care. Our goal is to assist referring providers with accessible, efficient, and patient-centered cardiac services.

Services Available:

Cardiac Diagnostic Testing

ECG (Electrocardiogram)
Holter Monitoring
Stress Testing
Echocardiography
Cardiology Consultations
Additional cardiac investigations (if applicable)

How to Refer a Patient

Healthcare providers may submit referrals by fax:

 Fax Referrals To:

647-948-1663

Required Referral Information

Please include:

- Patient demographics
- OHIP/health card information
- Relevant medical history
- Current medications
- Reason for referral
- Relevant diagnostic reports/lab work (if available)
- Urgency level if applicable

Urgent vs Routine Referrals

Routine Referrals Appropriate for:

- Stable cardiac symptoms
- Non-urgent assessments
- Follow-up investigations

Urgent Referrals

Please indicate urgency for patients with:

- Concerning cardiac symptoms
- Significant abnormal findings
- Rapid symptom progression
- Time-sensitive cardiac concerns

If a patient is experiencing a medical emergency, direct them to the nearest emergency department or call emergency services.
